

1. Swapping Transaction when we Genrate the report it shows the column of the Time Stamp Diff(Minutes) but while downlodng the excel report time diff column is not available in excel report.

2. Battery Historical not able to download excel Report.

Below is the url for the battery historical

Url: <https://stagingbss.mychargezone.com/app/report/batteryHistoricalData>

3. Swapping Transaction when we Genrate the report it shows the column of the Energy Sold but while downloading the excel report, that time in the Dhundahera Hub it shows empty column for the Energy Sold and for the rest of the hubs it shows the values in 1000 kwh format like 944.98, - 1130.91 in the excel report.

4. Weekly billing reference, it is genrate and download both in 1000 kwh format.

5. Need to use Dummy/Backup Data sever  
(credentials already shared)
